Alexandria, VA 22313-1450

Dear Sir:

Applicants hereby respond to the Office Action mailed June 26, 2003 and respectfully entry of the amendments made herein and consideration of the remarks presented herein.

In the Claims:

1. (currently amended) A method for determining cell/sector pair radio frequency isolation values in a cellular wireless communication system, the method comprising:
- transmitting on a broadcast channel in a broadcast cell/sector;
 - disabling transmissions on the broadcast channel in neighboring cells/sectors;
 - directing a plurality of mobile stations operating within the cellular wireless communication system to measure the strength of the broadcast channel and to measure the strength of respective serving traffic channels [by issuing a mobile assisted handoff message to the plurality of mobile
